69                     Online Task Inventory is an internet-based activity management service
70                     for the business professionals that have ongoing issues for the
71                     manual tasks carried out mentally. It helps these people to make the
72                     various regular tasks carried out during their work time in an easy
73                     and in effective way. It uses latest technologies to save time as
74                     well as reminds them about their activities. In this web-based
75                     application, employees, their managers and admins mainly work. The
76                     process begins with the candidate when he/she begins the procedure to
77                     find job or during training sessions in any IT field so that they
78                     can register itself to take internet-based exam. This scheduler also
79                     has facilities regarding the leave management, query management,
80                     holiday management, thus the employee can regularly clear up any kind
81                     and type of objection from its respected manager. This web-based
82                     application is mainly used in an IT field firm.</h3>
